SYLVANIA

OPERATING INSTRUCTIONS

SCD 152
45 SECONDS ANTI-SHOCK
PORTABLE CD PLAYER

CAUTION

Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

This compact disc player is classified as a CLASS 1 LASER product.

Invisible laser radiation when open and interlocks defeated. Avoid exposure to beam.

PRECAUTIONS

To maintain good performance

Do not use the unit in places which are extremely hot, cold, dusty or humid. In particular, do not use or keep the unit in following places.

- in a high humidity area such as a bathroom
- near a heater
- in an area exposed to direct sunlight (e.g., inside a parked car, where it can become extremely hot)
- near sources of strong magnetism, such as televisions, speakers, or magnets
- where there is a lot of movement or vibration, such as on a car dashboard or an unstable shelf

For safety

- Do not attempt to disassemble this unit. Laser rays from the optical pickup are dangerous to the eyes
- Make sure that pins or other foreign objects do not get inside the player
- Take care not to drop the unit or subject it to strong shocks
- To keep dust from the pickup lens, keep the disc compartment lid closed after use. Never touch the lens
- If you hear no sound when playing a disc, DO NOT turn the volume up high because the music could suddenly begin at high volume. To avoid hurting your ears or damaging the speakers, turn the volume control to the lowest level before starting playback and slowly turn it up to the desired level

Note on listening with the headphones

- Listen at moderate volumes to avoid hearing damage
- Do not wear the headphones while driving or cycling. It may create a traffic hazard
- You should use extreme caution or temporarily discontinue use in potentially hazardous situations, such as walking, jogging, etc

CAUTION

Listening to headphone stereo at full power for extended periods of time can result in hearing damage

Do not touch pickup lens

Note on condensation

If the unit is suddenly moved from a cold place to a warm one, it may cause in condensation on the pickup lens and malfunction or playback difficulties, should this occur, leave the unit for a few hours, then try playback again.

CONNECTION TO AN EXTERNAL UNIT ①

Use a commercially available connection cord which has a 3.5mm stereo plug at one end and two phono plugs at the other end.

Connect the stereo plug to the LINE OUT jack of the unit and connect the phono plugs to the analog input (AUX) terminals of the external unit.

NOTE

Turn off the power of both units before connection. **DO NOT** connect to the PHONO(magnetic pickup) inputs of an amplifier.

Volume and bass boost on this unit have no effect on the line output.

MAINTENANCE

To clean the lens ⑩

If the lens become dirty, the player will skip or not play. If this occurs, clean the lens in the following manner. To remove dust or dust particles, first use a camera lens blower/brush① to blow a few times to loosen particles, then gently brush the lens②/clean finish by blowing the lens again.

Note

Take care not to get too much solution on the swab, which could flow into the unit and cause damage. Pressing too strongly with the swab could scratch or break the lens.

To clean the discs ⑪

Before playing, wipe the disc from the center out with a cleaning cloth. After playing, store the disc in its case.

SPECIFICATIONS

Tracking system	1-beam laser
Laser pickup	Semiconductor laser
D/A conversion	8-times oversampling digital filter +1- bit DAC
Frequency response	20-20,000 Hz
Outputs	PHONES: stereo jack (3.5mm) [20mW+20mW, 32 ohms at 1 kHz]
Input	DC 4.5V for external power from AC adaptor: Not included.
Power	DC 3V from Alkaline batteries (2 x AA or LR6): Not included. DC 2.4V from the rechargeable batteries: Not included.
Dimensions	∅ 142 x 29(H) mm (∅ 5 ⁹ /16x 1 1/8 inches)
Weight	210 grams (9.8 oz.) without batteries
Supplied accessory	Stereo headphones (1)
